

My best Buddy!

Introducing the ELC Buddy! ELC Lighting's new Ethernet to DMX node has all the functions needed to get DMX out of your laptop. Whether you're a newcomer to the market or a student running simple software applications, the Buddy is an entry level product with an entry level price tag, yet with the same reliable high quality built into all ELC- Lighting's products.

Costing half the price of our professional range, you won't have to dig deep in your pockets to bag yourself a Buddy with ELC quality and the power of 1024 DMX channels.

Specification

- 2 x DMX Universes (1024 DMX channels)
- Power over USB port
- Ethernet port with sACN or Artnet Protocol
- Ports can act as input or output
- Simple programming through specific software application
- Compatible with dmXLAN v4 software as any ELC dmXLAN node
- Integrated web page available on any pc, laptop, tablet or Smartphone will convert the device into a simple DMX controller – just like the famous ELC focusHAND remote.
