

ETC Source Four Mini LED

Good things really do come in small packages.

Big Source Four attitude, small size... now in an LED.

Get everything you know and love about the ETC Source Four®
in a footprint that can fit just about anywhere,
in traditional tungsten or LED.

Source Four Mini LED

CUTE JUST GOT A LOT GREENER

Tiny fixture, big energy savings

The Source Four Mini LED has the same size, look, optics and beam angles as the Source Four Mini tungsten fixture, but with the efficiency and energy savings you've come to expect from an ETC LED light source. With its distinctive long-life, 35,000-hour, 12W LED, the Source Four Mini LED not only uses less power than a traditional tungsten luminaire, but it's also brighter so you don't have to sacrifice output for energy savings. It's the perfect fit for museums, stores, restaurants, lobbies, theatres and other smaller-scale installations that want to meet new energy codes and regulations.
