

**IT JUST OUTMANEUVERED THE REST.
AGAIN.**

SWEFOG ULTIMATE 2000 DMX
THE EVOLUTION OF PERFECTION

SWEFOG
SMOKE-FOG-HAZE :: MADE IN SWEDEN

The best atmospheric hazer ever to wear the Swefog logo is the product of two decades of fogmaking and a ground-up engineering effort.

Zealous attention to detail is what sets Swefog products apart from the mainstream. Professional-grade design and engineering means a commitment to a higher standard. In place of flashy doodads and gimmicks, Swefog hazers are endowed with innovation and technology that uplifts everyday use.

Again, Swefog sets a reference standard with the Ultimate 2000 DMX, the 4th generation of atmospheric hazers.

No other haze - water, glycerine or glycol-based - compares to the haze of Ultimate 2000 DMX.

The haze is virtually invisible until it is illuminated, and it enhances the beams from projected lights without loss of illumination power.

Unbeatable reliability, performance and value for money, the 4th generation Ultimate hazers represent a true industry standard that other hazers compare to.

Proudly handmade in Sweden.

HIGHLIGHTS:

- Instant ON, NO warm-up time, NO heat, NO glycols, NO water, NO spirits.
- Fully integrated DMX control, uses one channel only.
- Manual or DMX control mode. Illuminated LED display, auto-store of DMX channel at power-off, perfect for touring use.
- Extremely low fluid consumption, 0.05 ltr (0.01 us gal) per hour at continuous operation at full output. A 5L (1.3 U.S. gal) fluid canister will last for approx. 80 (!) hours.
- An advanced internal 5 micron filter system ensures the safest, cleanest atmospheric haze.
- Features a new air filter system; in & outlets are protected with an easily replaceable filter, keeping internal parts clean.
- A new, ergonomic AluGrip handle and a perfectly balanced design make Ultimate 3000 fully portable.
- Available in 230V 50 Hz (CE).

DIMS & WEIGHT, NET:
LxWxH: 383 x 204 x 388 mm / 19.3 kgs
LxWxH: 15.1" x 8.0" x 15.3" / 42.5 lbs

DIMS & WEIGHT, BOXED:
LxWxH: 471 x 300 x 485 mm / 20.1 kgs
LxWxH: 18.5" x 11.8" x 19.1" / 44.3 lbs

SPECIFICATIONS:

Type: "Cracker" haze generator, pneumatic.
Fluid type: Mineral-oil based
Fluid consumption: 0.05 ltr (0.01 US gal) at continuous. oper.
Reservoir capacity: 2.5 ltr (0.66 US gal)
Operation: Continuous
Nozzle type: Swefog V-TEC 3-way vapourizing nozzles
DMX channels req: 1
Power consumption: 580 Watts

Ultimate 2000 DMX comes fully loaded with integrated DMX 512 as a standard feature.

The reference standard that other hazers compares to: The Swefog Ultimate 2000 DMX.
